United Nations A/54/736

General Assembly

Distr.: General
7 February 2000

Original: English

Fifty-fourth session
Agenda item 130 (a)
Financing of the activities arising from Security Council resolution 687 (1991): United Nations Iraq-Kuwait Observation Mission

Financing of the activities arising from Security Council resolution 687 (1991): United Nations Iraq-Kuwait Observation Mission

Report of the Secretary-General

Summary

The present report contains the proposed budget for the 12-month period from 1 July 2000 to 30 June 2001 for the maintenance of the United Nations Iraq-Kuwait Observation Mission, which amounts to $49,818,000 gross ($47,823,000 net).

Of the total budget, some 49.5 per cent of resources relate to military personnel costs, while civilian personnel costs account for 26.2 per cent. Operational costs account for 20.3 per cent of the budget, while staff assessment comprises 4 per cent of the total. Less than 1 per cent of total resources is related to other programmes.

The action to be taken by the General Assembly is set out in paragraph 3 of the present report.

I. Overview

1. The present report contains the proposed budget for the 12-month period from 1 July 2000 to 30 June 2001 for the maintenance of the United Nations Iraq-Kuwait Observation Mission (UNIKOM), which amounts to $49,818,000 gross ($47,823,000 net).

2. Estimated requirements for the period from 1 July 2000 to 30 June 2001 represent a 1.9 per cent decrease ($959,800) in total gross resources in relation to the apportionment for the current period (1 July 1999 to 30 June 2000). The proposed decrease reflects a 0.7 per cent decrease in civilian personnel costs and a 7.7 per cent decrease in operational costs. This decrease is offset by a 0.1 per cent increase in military personnel costs. There is no change in the percentage share of other programmes and staff assessment. The financial resource requirements are summarized in table 1, and military and civilian staff requirements are provided in table 2.

Table 1
Financial resources
(Thousands of United States dollars)

				Proposed increase/(decrease) over 1999/00	
Category of expenditure	*1998/99 expenditures*	*1999/00 apportionment*	*2000/01 cost estimates*[a]	*Amount*	*Percentage*
Military personnel	24 735.7	24 673.2	24 647.0	(26.2)	(0.1)

United Nations Volunteers	-	-	-	-

[a] Represents highest level of authorized strength.

[b] Of the total authorized strength of 300, excludes 105 who are on standby and for whom no provision is made.

3. **The actions to be taken by the General Assembly are as follows:**

(a) A decision to appropriate the amount of $49,818,000 gross ($47,823,000 net) for the maintenance of the Mission for the 12-month period from 1 July 2000 to 30 June 2001, including $31,882,000 net, representing two thirds of the cost, to be funded through voluntary contributions from the Government of Kuwait;

(b) A decision to assess $17,936,000 gross ($15,941,000 net), representing the balance net of voluntary contributions for the maintenance of the Mission for the 12-month period beginning 1 July 2000, at a monthly rate of $1,494,667 gross ($1,328,417 net), subject to a decision by the Security Council with regard to the termination or continuation of UNIKOM.

II. Political mandate of the Mission

(Security Council resolutions 687 (1991) of 3 April 1991, 689 (1991) of 9 April 1991 and 806 (1993) of 5 February 1993)

4. By its resolution 687 (1991), the Security Council established a demilitarized zone along the Iraq-Kuwait boundary and approved the following terms of reference for UNIKOM: to monitor the Khawr 'Abd Allah and a demilitarized zone extending 10 kilometres into Iraq and 5 kilometres into Kuwait from the boundary referred to in the Agreed Minutes between the State of Kuwait and the Republic of Iraq regarding the restoration of friendly relations, recognition and related matters of 4 October 1993; to deter violations of the boundary through its presence in and surveillance of the demilitarized zone; and to observe any hostile or potentially hostile action mounted from the territory of one State against the other.

5. Subsequently, by its resolution 806 (1993), the Security Council extended the terms of reference of UNIKOM to take action to prevent, or, if that failed, to redress small-scale violations of the demilitarized zone, violations of the boundary between Iraq and Kuwait,

for example, by civilians or police, and problems that might arise from the presence of Iraqi installations and Iraqi citizens and their assets in the demilitarized zone on the Kuwaiti side of the newly demarcated boundary.

6. In a letter dated 6 October 1999 addressed to the Secretary-General (S/1999/1033), the President of the Security Council reported that the Council had reviewed the question of the termination or continuation of UNIKOM and its modalities of operation and had concurred with the Secretary-General's recommendation that the Mission be maintained. The Council also decided, in accordance with resolution 689 (1991), to review the question once again by 6 April 2000.

III. Operational plan and requirements

7. The UNIKOM concept of operations is based on surveillance, control, investigation and liaison. The demilitarized zone is an area that extends approximately 200 kilometres along the ground and 40 kilometres into the Khawr 'Abd Allah waterway. It extends 10 kilometres into Iraq and 5 kilometres into Kuwait. Surveillance of the zone is based on patrol and observation bases, ground and air patrols and observation points. Control operations include static checkpoints, random checks and maintenance of a force mobile reserve. Investigative teams are maintained at the sector level as well as at UNIKOM headquarters, and liaison is carried out continuously at all levels. For operational purposes, the zone is divided into two sectors (northern and southern), with 10 and 7 patrol/observation bases respectively. UNIKOM also has offices at Baghdad and Kuwait City for the purpose of maintaining liaison with the Governments of Iraq and Kuwait.

8. Preparations for the launching of the UNIKOM maritime monitoring operations in the Khawr 'Abd Allah waterway are continuing. Construction work on the patrol and observation base and the pier on Warbah Island are now virtually complete. UNIKOM will be provided with four patrol boats by the Government of Kuwait, which will be used for monitoring the Khawr 'Abd Allah waterway and resupplying Warbah Island. The two smaller vessels will be positioned at Camp Khor, while the two medium-sized vessels will be positioned at Warbah Island.

9. The military observers have primary responsibility for conducting patrol, observation, investigative and liaison activities. The infantry battalion is deployed at Camp Khor, at a company camp at Al'Abdali and at platoon camps in the southern and northern sectors. The battalion undertakes armed patrols within the sectors and has a mobile reserve, which is deployed as necessary in sensitive situations. The battalion also operates checkpoints at the border-crossing sites and conducts random checks in cooperation with Iraqi and Kuwaiti liaison officers. The battalion has staffed the easternmost patrol and observation base on the Iraqi side of the demilitarized zone. It also provides security for UNIKOM personnel and its installations wherever and whenever necessary.

10. The authorized strength of UNIKOM consists of 300 military observers (105 of whom are on standby) and 910 troops, including 135 support personnel. For the period from 1 July 2000 to 30 June 2001, budgetary provision is made for only 195 military observers and 910 troops, comprising 775 infantry and 135 support personnel, including an engineering unit from Argentina, a medical unit from Germany and a helicopter and boat crew from Bangladesh.

11. The operational requirements of the Mission were set out in the reports of the Secretary-General to the Security Council of 5 April 1991 (S/22454 and Add.1), 18 January 1993 (S/25123), 1 April 1996 (S/1996/225) and 27 September 1996 (S/1996/801).

IV. Contributions made under the status-of-mission agreement

12. No goods or services are provided for under the status-of-mission agreement.

V. Voluntary contributions and trust funds

Government/ organization	*Contribution*	*Value (United States dollars)*	
		1 July 1999 to 30 June 2000	*1 July 2000 to 30 June 2001*
Kuwait	Cash (two thirds of the cost of UNIKOM)[a]	34 664 080	31 882 000
	35 vehicles and 2 trailers for the UNIKOM engineering unit	1 793 789	1 793 789
	Vehicle for Force Commander	26 756	26 756
	Two radar surveillance systems, manuals, spare parts, installation and one year of maintenance	[b]	[b]
	Utilities	[b]	[c]
	Medical supplies	[b]	[b]
	Premises of UNIKOM Support Centre, Camp Khor and Camp Al'Abdali	[b]	[b]
Iraq	Premises at UNIKOM headquarters, liaison office in Umm Qasr and Liaison office in Baghdad	[b]	[b]

[a] The figure of $34.6 million includes the Mission's share of the prorated cost of the support account for peacekeeping operations and the United Nations Logistics Base at Brindisi, Italy, for the period from 1 July 1999 to 30 June 2000. The projection of $31.8 million for 2000/01 excludes at this time the prorated cost of the support account and the Logistics Base, which is to be determined.

[b] The value of this contribution has yet to be determined.

[c] See annex I.C, para. 16.

13. No trust fund has been established in support of UNIKOM.

VI. Status of reimbursement of troop-contributing Governments

14. The current troop contributors are the Governments of Argentina, Bangladesh and Germany.

15. Troop costs have been fully reimbursed for the period ending 30 April 1999.

16. Troop-contributing countries are owed a total of $8.9 million for the period through 31 January 2000.

VII. Contingent-owned equipment and self-sustainment

A. Method of reimbursement

17. The reimbursement of two Governments for equipment provided to the Mission is based on the old reimbursement system of 10 per cent of the value of the equipment per year, and therefore there are no signed contribution agreements. Negotiations are currently ongoing between the United Nations and one Government for reimbursement for equipment provided to the Mission to be based on the new arrangements.

B. Requirements

18. Requirements for reimbursement of major equipment to two contingents amount to $1,565,900.

19. Requirements for self-sustainment totalling $33,400 are included in the cost estimates for the period from 1 July 2000 to 30 June 2001 in respect of one contingent, as follows:

Category	*Amount (United States dollars)*
Nuclear, bacteriological and chemical protection	24 500
Explosive ordnance disposal	3 900
Miscellaneous general stores	5 000
Total	**33 400**

VIII. Staffing requirements

Local staff	166	166	–
Total	**238**	**238**	**–**

20. No changes to the current staffing table are proposed for the period from 1 July 2000 to 30 June 2001. The detailed breakdown by office is shown in section B below.

21. For operational expediency, the Electronic Data-Processing Section was subsumed as a unit within the Engineering Support Section with effect from August 1998. Accordingly, the section has been renamed the Engineering and Electronic Data-Processing Support Section.

22. Following a review, it was concluded that for operational reasons no conversions from General Service to locally recruited staff were possible at this time.

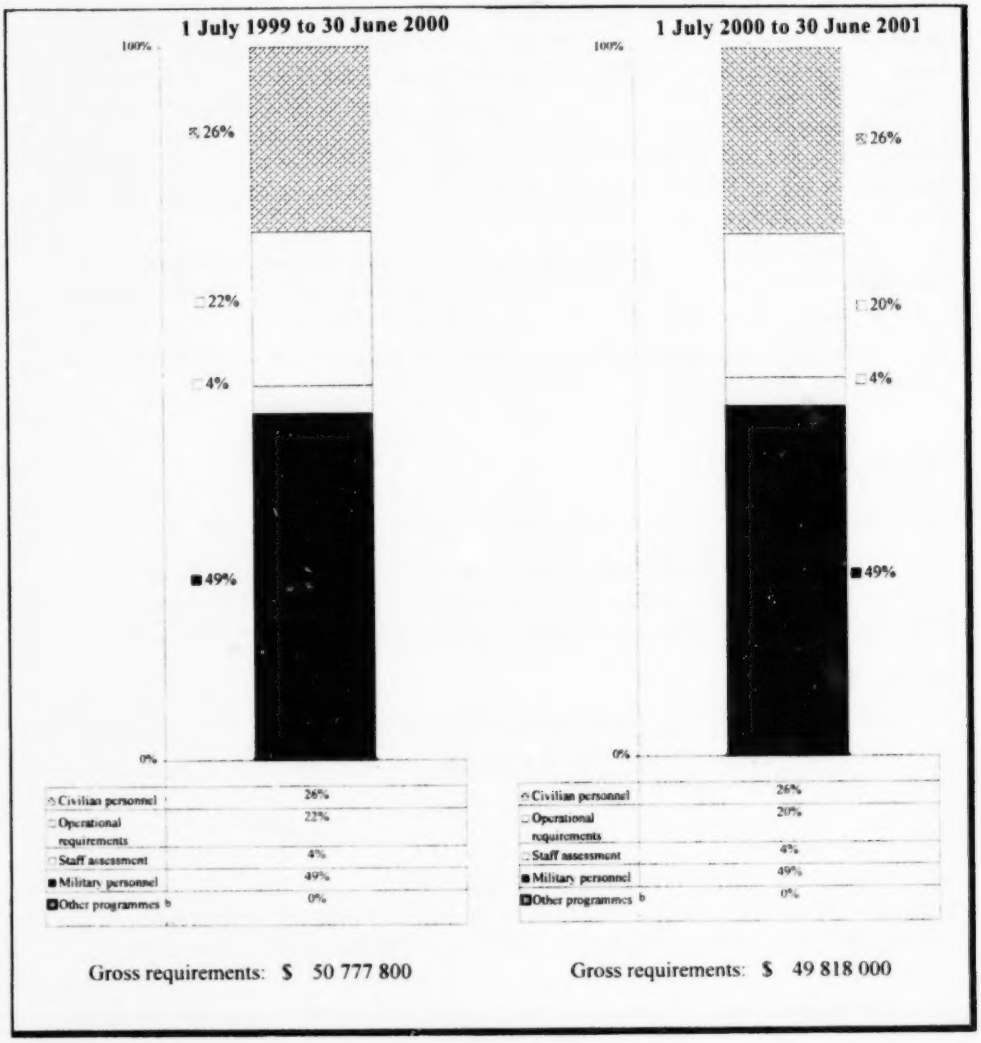
Total	**46 923.0**	**50 777.8**	**49 818.0**	**2 615.9**

[a] As contained in annex I of the performance report (A/54/709). Excludes $2,618,400 for the support account for peacekeeping operations and $419,500 for the United Nations Logistics Base at Brindisi.

[b] Based on appropriation provided in General Assembly resolution 53/229 of 8 June 1999, exclusive of $2,686,445 for the support account for peacekeeping operations and $526,779 for the financing of the United Nations Logistics Base at Brindisi.

B. Distribution of gross requirements by major cost component[a]



[a] Total may not add up to 100 per cent because of rounding.

[b] Other programmes represent less than 1 per cent of total resources.

C. Supplementary information

1. The proposed budget for the 2000/01 fiscal period provides for the maintenance of 195 military observers (excluding 105 who are on standby) and 910 contingent personnel authorized by the Security Council in its resolutions 689 (1991) and 806 (1993), supported by a civilian establishment of 72 international staff members and 166 locally recruited staff members. The estimates take into account technical adjustments to the cost parameters based on past expenditure patterns. Salaries of international staff reflect non-entitlement to post adjustment for nine posts currently encumbered by mission appointees. Civilian staff salaries and related costs as well as mission subsistence allowance include a 10 per cent vacancy factor in view of past incumbency patterns.

2. Provisions for travel of military observers and contingent personnel, spare parts for transport, communications and other equipment and supplies and services are based on mission-specific parameters, which are lower than standard costs.

3. Provision for non-recurrent items, including vehicles and major equipment, is based on standard costs unless otherwise indicated.

Military personnel

Apportionment: $24,673,200; estimate: $24,647,000; variance: ($26,200)

4. The decrease of $26,200 under this heading relates to reduced requirements under military observers ($175,500) and military contingents ($248,000), which are offset by additional requirements for other costs pertaining to military personnel ($397,300).

Military observers

5. The decrease of $175,500 under this heading is based on past expenditure patterns and reflects a reduction in the estimated average cost of rotation ($3,000) compared with the preceding financial period ($4,000).

Military contingents

6. The decrease of $248,000 under this heading is attributable primarily to a reduction in the unit cost of rations (to $4.65 per person per day) under the new contract effective 1 September 1999, compared with the unit cost of $5.50 per person per day for the 1999/00 financial period.

7. This decrease was offset by an increase in personnel from 908 in the 1999/00 period to 910 during the reporting period, owing to the requirement for additional air and sea rescue personnel in the helicopter unit in connection with the projected implementation of naval operations. Reduced requirements for the rotation of 775 infantry personnel through charter rates were offset by higher costs for the rotation of 135 support personnel.

Other requirements pertaining to military personnel

8. The increase of $397,300 under this heading reflects additional requirements for reimbursement of equipment furnished by two troop-contributing Governments, at the request of the United Nations, based on an annual depreciation rate of 10 per cent.

9. The estimate also provides for requirements for self-sustainment in respect of equipment provided by one troop-contributing Government under the new arrangements.

The related memorandum of understanding between the United Nations and the Government is currently under negotiation.

Civilian personnel

Apportionment: $13,157,800; estimate: $13,071,200; variance: ($86,600)

10. Salaries and common staff costs for 72 international posts are estimated on the basis of standard salary costs in New York and take into account a vacancy factor of 10 per cent as well as non-entitlement to post adjustment in respect of nine international staff (4 Professional and 5 Field Service) who are classified as mission appointees. Salaries and common staff costs for 166 local posts (163 in the demilitarized zone and Kuwait City and 3 in Baghdad) are calculated on the basis of prevailing local salary scales in the mission area and, in the light of past experience, take into account a vacancy factor of 10 per cent.

11. The estimate for mission subsistence allowance for 72 international staff (62 in the demilitarized zone, 9 in Kuwait and 1 in Baghdad) are in accordance with the rates indicated in annex II.A and include a vacancy factor of 10 per cent.

12. The provision includes $81,200 for official travel of staff and provides for the travel of Headquarters personnel to the mission area for political and military consultations, administrative consultations and logistical and technical support. Provision is also made for the travel of mission personnel to Headquarters for administrative and military consultations. A detailed breakdown of the estimate is provided in annex II.A.

Operational requirements

Apportionment: $10,936,900; estimate: $10,089,800; variance: ($847,100)

13. The estimate of $10,089,800 includes non-recurrent cost requirements, amounting to $2,615,900, primarily for the replacement of worn or obsolete equipment that is beyond economic repair and undergoing write-off action.

14. The decrease of $847,100 under this heading is attributable to reductions in requirements under air operations ($743,300), communications ($113,600), other equipment ($88,400), supplies and services ($359,500) and air and surface freight ($50,000). The reduction was offset by higher estimated requirements under premises/accommodation ($397,800), infrastructure repairs ($8,000), transport operations ($85,000) and naval operations ($16,900).

Premises/accommodation

15. The increase of $397,800 under this heading relates to: (a) the purchase of 22 new prefabricated structures in connection with the redeployment of 81 additional personnel from Camp Khor to Camp Sierra for operational reasons; (b) the construction of 37 structures of varying sizes for the protection of vehicles and heavy equipment from the harsh climatic conditions in the mission area; and (c) the increase in the cost of diesel fuel from $0.131 to $0.1797 per litre effective August 1999. The estimate includes $362,500 in non-recurrent costs for construction and prefabricated buildings.

16. Commencing with this period, provision is made for requirements for electricity and water at Camp Khor and the Kheitan Support Centre in Kuwait ($68,400). In accordance with a recent agreement with UNIKOM, the host Government has agreed to waive charges

for those utilities for the period from 1 July 1993 to 30 June 2000 with the understanding that those costs will be paid by UNIKOM beginning 1 July 2000. As indicated in section V.B of the proposed budget for the period from 1 July 1999 to 30 June 2000 (A/53/817), the value of those voluntary contributions for the period from the inception of UNIKOM to 30 June 1998 amounted to $365,671. The value of such contributions for the period from 1 July 1998 to 30 June 2000 has yet to be determined.

Transport operations

17. UNIKOM maintains an establishment of 454 vehicles, of which 292 are United Nations-owned (271 vehicles and 21 trailers) and 162 are contingent-owned (151 vehicles and 11 trailers).

18. The proposed budget includes a non-recurrent provision of $1,183,900 for the replacement of 59 vehicles, which will be written off for wear and tear in accordance with the year/kilometre replacement programme. Provision of $57,500 is also included for the replacement of various types of workshop equipment that is beyond economic repair. The detailed breakdown of those requirements is shown in annex II.C.

19. The estimated increase of $128,300 under spare parts, repairs and maintenance is attributable to: (a) the increase in the average maintenance cost of 32 armoured personnel carriers from $375 to $417 per vehicle per month, in view of the ageing of those vehicles and the harsh climate in which they operate; (b) the new requirement for the cost of roll-over protection for 51 light vehicles to be purchased during the period; (c) the installation of air-conditioning systems for 13 trucks; and (d) the purchase of 55 vehicle-mounted spotlights to improve visibility for night observation and investigation.

20. The increase of $218,500 under petrol, oil and lubricants is due primarily to the increase in the cost of fuel from $0.131 per litre for both diesel fuel and petrol to $0.1797 per litre for diesel fuel and $0.1961 per litre for petrol, effective August 1999.

Air operations

21. The decrease of $743,300 under this heading is attributable primarily to the termination of fixed-wing air operations and other costs (landing fees and ground-handling costs) owing to the closure of Iraqi airspace in December 1998.

22. For the reporting period, UNIKOM will continue to lease two Bell 212 helicopters under letter-of-assist arrangements with a troop-contributing Government. The aircraft are deployed for patrol and reconnaissance, resupply of patrol and observation bases, medical evacuation and search-and-rescue operations. The increase of $74,100 under helicopter operations is attributable to the requirement for positioning costs of $125,000 by the end of the contract in September 2000. The arrangements provide for positioning/depositioning costs to be payable every two years in connection with the projected replacement of equipment. The provision represents the balance of $105,000, taking into account the amount of $20,000 already apportioned for positioning costs during the 1999/00 period.

Naval operations

23. The increase of $16,900 under this heading provides for fuel, maintenance and insurance costs for four patrol boats to be used for the maritime monitoring of the Khawr 'Abd Allah waterway and the resupply of Warbah Island. The increase in fuel requirements is attributable to the higher fuel cost ($0.1797 per litre) compared with the 1999/00 period ($0.131 per litre).

Communications

24. The provision of $787,300 under this heading includes $466,300 for the replacement of equipment in connection with the continuing enhancement of the UNIKOM communication infrastructure. To improve communication coverage between Umm Qasr and Baghdad, additional Codan radios will be installed at those locations and in vehicles travelling between Iraq and Kuwait. In addition, the budget provides for the purchase of eight grid antennas to replace existing microwave links between Kuwait City and Umm Qasr, which cannot be technically reconfigured to the new frequencies allocated to UNIKOM by the Kuwaiti Ministry of Communications. The estimate also includes $28,500 for the replacement of workshop equipment. Detailed information on the replacement of communication equipment is provided in annex II.C.

Other equipment

25. The provision of $642,200 under this heading includes the non-recurrent requirement of $415,700 for the replacement of worn and obsolete equipment, set out in annex II.C. Compared with the provision for the 1999/00 period, the estimate for 2000/01 under this heading reflects a 12 per cent decrease, which is due primarily to reduced requirements for data-processing equipment.

26. However, provision for observation equipment has been increased in connection with the establishment of a patrol and observation base on Warbah Island for the maritime monitoring of the Khawr 'Abd Allah waterway. Increased requirements for refrigeration and water-purification equipment relate to the replacement of items beyond economic repair and additional requirements for patrol and observation bases and mission headquarters.

Supplies and services

27. The provision of $1,080,800 under this heading reflects a 25 per cent decrease from the 1999/00 period resulting from the lower cost of contractual services obtained under the new contract for support services (janitorial services, laundry services, pest control, grounds maintenance, sewage services and waste disposal), which came into effect 1 September 1999. The current average cost of contractual services is $33,100 per month, compared with $51,100 per month under the previous contract.

28. Requirements for field defence stores have decreased by 71 per cent as a result of requirements for ballistic walls for only two patrol and observation bases, compared with requirements for seven such bases in the 1999/00 period.

29. The higher provision for data-processing services relates to software licensing fees for finance, payroll, procurement and other commercial software applications.

Air and surface freight

30. No provision is required during the budget period for the transport of contingent-owned equipment. The reduced provision of $50,000 for commercial freight and cartage is based on the recent expenditure pattern.

Staff assessment

Apportionment: $1,994,900; estimate: $1,995,000; variance: $100

31. The amount budgeted under this heading represents the difference between gross and net emoluments, that is, the amount of staff assessment to which the United Nations staff members are subject under the Staff Regulations. Estimates for staff assessment include a 10 per cent vacancy factor for international and local staff.

Income from staff assessment

Apportionment: ($1,994,900); estimate: ($1,995,000); variance: ($100)

32. The staff assessment requirements provided for under line VII (annex I.A) have been credited to this item as income from staff assessment and will be credited to the Tax Equalization Fund established by the General Assembly in its resolution 973 A (X) of 15 December 1955. Member States are given credit in the Fund in proportion to their rate of contribution to the UNIKOM budget.

Annex II

Cost estimates for the period from 1 July 2000 to 30 June 2001: analysis

A. Standard and mission-specific costs

Description	Previous submission	Average strength	Proposed estimates: Standard cost	Proposed estimates: Unit or daily cost	Proposed estimates: Monthly cost	Proposed estimates: Annual cost	Explanation
			(United States dollars)				
1. Mission subsistence allowance							
Demilitarized zone	90		[a]	90			Rates took effect on 1 March 1996.
Kuwait City	75		[a]	75			
Baghdad	100		[a]	100			
2. Travel costs (one-way)							
Military observers	1 950		[a]	1 500			Based on recent expenditure pattern.
Military contingents							
Infantry personnel	650		[a]	550			Based on current charter rates.
Support personnel	650		[a]	1 190			Based on current commercial rates.
3. Military personnel							
Military observers	195	195					
Infantry	775	775					
Logistics/support	133	135					Increase in helicopter crew to provide air/sea rescue support.
4. Troop reimbursement							
(a) Pay and allowance	988		988		988		
(b) Specialist allowance	291		291		291		
Infantry	10 per cent				10 per cent		Payable for 10 per cent of unit.
Logistics/support	25 per cent				25 per cent		Payable for 25 per cent of unit.
5. Clothing and personal equipment allowance							
Military observers	200		200			200	
Military contingents	70		70		70		Includes ammunition ($5).

Description	Previous submission	Average strength	Proposed estimates: Standard cost	Proposed estimates: Unit or daily cost	Proposed estimates: Monthly cost	Proposed estimates: Annual cost	Explanation
				(United States dollars)			
6. Welfare							
Recreational leave	10.50		10.50	10.50			Payable for up to 7 days for every 6-month period of service.
Recreational equipment	8		9		8		
Mail/postage	4		[a]		4		Based on past expenditure pattern.
7. Rations							
Rations	5.50		[a]	4.65			Based on current contract effective 1 September 1999.
Bottled water	0.22		[a]	0.22			
Contingency reserve (one month)	-		[a]	0.20			Replacement of expiring meals ready-to-eat.
8. Daily allowance	1.28		1.28	1.28			
9. Contingent-owned equipment							
Major equipment	1 202 800		[a]			1 565 900	In respect of equipment provided by two contingents.
10. Self-sustainment	-					33 400	In respect of support units provided by one contingent.
11. Death and disability compensation	40 000		40 000	40 000			Based on 1 per cent of the total strength of military observers and military contingent personnel.
12. Civilian personnel							
International staff	72	72					
Local staff	166	166					
13. Local staff							
Net salary			[a]				
Demilitarized zone and Kuwait	2 000				2 000		Based on salary scales effective 1 September 1997.
Baghdad	1 200				1 200		Based on salary scales effective 1 December 1997.
Common staff costs			[a]				
Demilitarized zone and Kuwait	550				550		
Baghdad	90				90		
Staff assessment			[a]				
Demilitarized zone and Kuwait	500				500		

Description	Previous submission	Average strength	Proposed estimates: Standard cost	Proposed estimates: Unit or daily cost	Proposed estimates: Monthly cost	Proposed estimates: Annual cost	Explanation
				(United States dollars)			
Baghdad	280				280		
14. Other travel costs			[a]				
Headquarters to mission area							
Political officers	10 200					10 600	
Mission planning/assessment	8 900					5 200	
Military officer	-					5 200	
Medical officers	8 700					10 500	
Contingent-owned equipment training	10 000					-	
Administrative and technical support	-					11 600	
Force Commander	6 700					6 700	
Chief Administrative Officer	13 500					11 800	
Other mission personnel to Headquarters	13 400					11 800	
Within-mission travel	5 000					3 050	
Office of Internal Oversight Services	9 200					4 800	
Aviation specialist	3 300					-	
15. Alteration and renovation of premises	11 883		[a]		12 790		Additional requirement for expansion of Camp Sierra.
16. Maintenance supplies	16 417		10 per cent of rent		15 585		Lower projected requirements for routine maintenance.
17. Maintenance services	3 583		10 per cent of rent		4 083		Higher cost of local contracts for maintenance of fire alarm, metering and plumbing systems.
18. Utilities							
Electricity			[a]				
Iraq	12 000				12 000		
Kuwait	-				5 350		See annex I.C, para. 16.
Water			[a]				
Iraq	2 665				2 260		
Kuwait	-				350		*Idem.*
Generator fuel	21 484		[a]		27 560		Increase in cost of diesel fuel from $0.131 to $0.1797 per litre.

Description	Previous submission	Average strength	Proposed estimates: Standard cost	Unit or daily cost	Monthly cost	Annual cost	Explanation
			(United States dollars)				
19. Vehicles							
(a) United Nations-owned							
Civilian-pattern	271	271					
Trailers	21	21					
(b) Contingent-owned							
Civilian-pattern	119	119					
Military-pattern	32	32					
Trailers	11	11					
20. Spare parts and maintenance of vehicles							
Civilian-pattern	110/165		110/550		110/165		Based on past expenditure pattern.
Special-purpose vehicles and engineering equipment	292				292		*Idem*.
Armoured personnel carriers	375				417		Due to ageing of vehicles and harsh climate.
21. Petrol							
Civilian-pattern			a				
Petrol, unleaded	315			472			Increase in cost from $0.131 to $0.1961 per litre.
Diesel	282			386			Increase in cost from $0.131 to $0.1797 per litre.
Special-purpose vehicles and engineering equipment	18		a	25			Increase in cost of diesel fuel from $0.131 per litre to $0.1797 per litre.
Armoured personnel carriers	44		a	60			*Idem*.
22. Vehicle insurance							
Local coverage							
Civilian-pattern			550				
Iraq	85 800					108 420	Increase in rate from $220 to $278 per vehicle per year.
Kuwait	50 700					29 250	Decrease in rate from $130 to $75 per vehicle per year.
Military-pattern			550				
Iraq	15 040					9 760	Decrease in rate from $470 to $305 per vehicle per year.
Kuwait	-					-	Not required.

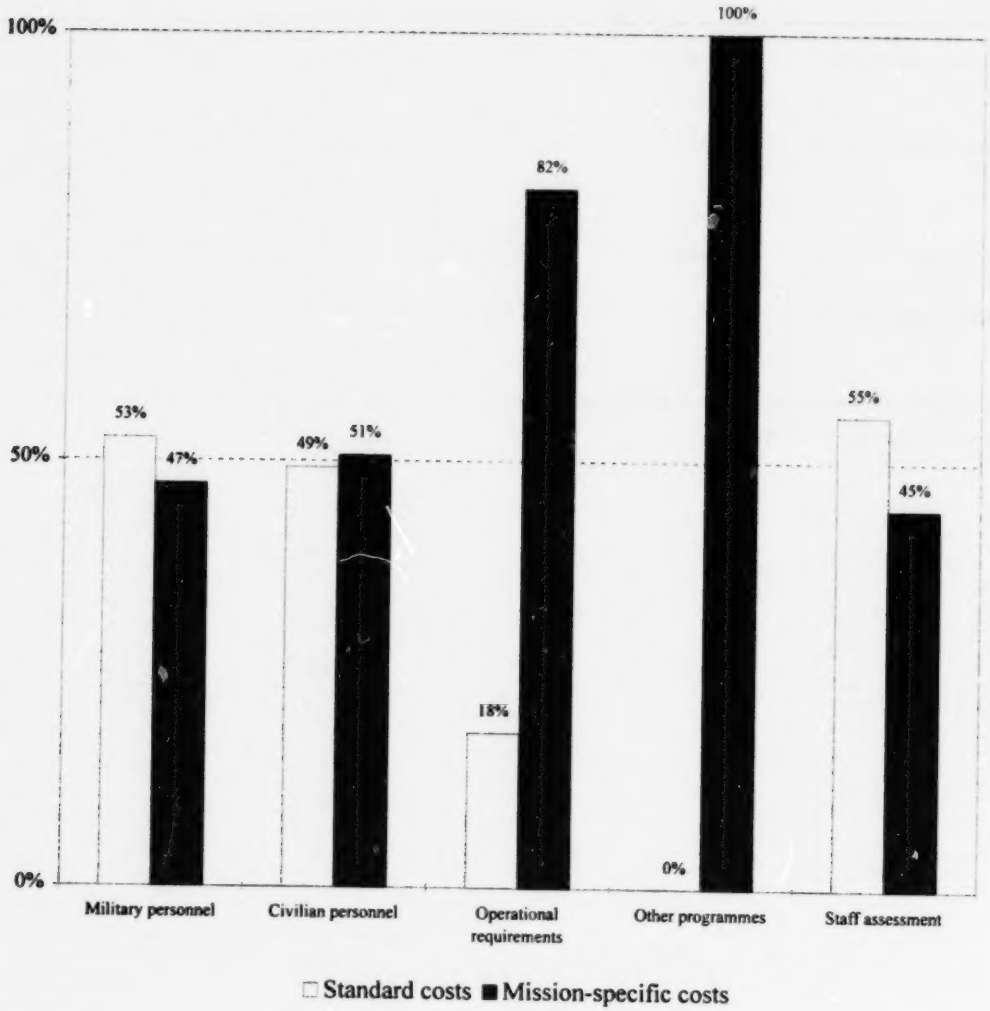
Description	Previous submission	Average strength	Proposed estimates: Standard cost	Proposed estimates: Unit or daily cost	Proposed estimates: Monthly cost	Proposed estimates: Annual cost	Explanation
			(United States dollars)				
Worldwide coverage							
Civilian-pattern	23 400					23 400	At the rate of $60 per vehicle per year.
Military-pattern	11 200					11 200	At the rate of $350 per vehicle per year.
23. Helicopters (number)							
Bell 212, medium	2	2					Provided under letter-of-assist arrangements.
24. Monthly flying hours (each)	90	90					
25. Helicopter rental (per hour)	1 190		1 900	1 190			
26. Helicopter fuel	16 392		a		15 682		Decrease in fuel cost from $0.23 to $0.22 per litre.
27. Helicopter insurance	26 400		a			19 000	Based on current rates for the master aviation third-party liability coverage.
28. Fixed-wing aircraft (number)							
Antonov AN-26B	1	-					Lease terminated owing to the closure of Iraqi airspace.
29. Monthly flying hours	85	-					
30. Fixed-wing rental	34 000		38 500		-		
31. Fixed-wing fuel	21 500		a		-		
32. Fixed-wing insurance	12 000		a			-	
33. Other air operations requirements							
Landing fees and ground handling	10 600		a		-		Not required owing to termination of fixed-wing operations.
34. Naval operations							
Number of vessels							
Light	2	2					
Medium	2	2					
Fuel	5 000		a		7 030		Increase in cost of diesel fuel from $0.131 to $0.1797 per litre.
Maintenance			a				
Light vessel	9 900					9 900	At the rate of 68 hours per year at $145 per hour.
Medium vessel	8 000					8 000	At the rate of 40 hours per year at $200 per hour.

Description	Previous submission	Average strength	Proposed estimates: Standard cost	Proposed estimates: Unit or daily cost	Proposed estimates: Monthly cost	Proposed estimates: Annual cost	Explanation
				(United States dollars)			
Insurance	6 000		a			6 000	
35. Communications spare parts and supplies	65 000		a			65 000	
36. Commercial communications							
Rental of transponder	7 083		a		10 000		Increase in rate for global transponder lease.
INMARSAT-M charges	1 500				1 500		
Facsimile, telephone rental and long-distance charges	8 100		a		8 333		Projected increase in user charges.
Leased-line charges	-		a		833		At the rate of $2,500 per quarter.
Internet access	-		a		667		New requirement.
37. Other equipment spare parts, repairs and maintenance	19 685		a		18 875		Based on past expenditure pattern.
38. External audit	97 700		a			105 300	Based on projected requirements of the Board of Auditors.
39. Contractual services	51 100				33 100		Based on the terms of the current contract, which took effect on 1 September 1999.
40. Data-processing services	20 000					70 000	New requirement for licensing fees for additional software applications.
41. Medical treatment and services	2 400					7 000	Takes into account introduction of charges by the Kuwaiti Ministry of Health.
42. Claims and adjustments (per person)	30 000					10 000	Based on past expenditure pattern.
43. Official hospitality	5 000		a			5 000	
44. Miscellaneous other services	40 000		a			50 000	Projected increase in bank charges and pest control.
45. Stationery and office supplies	5 000				6 083		Based on past expenditure pattern.
46. Medical supplies	1 416				1 558		Projected requirements for drugs and vaccinations that are not available in the Kuwait central medical store.
47. Sanitation and cleaning materials	2 500				2 500		
48. Subscriptions	1 650		a		1 208		Decrease in subscription rates for certain publications.
49. Electrical supplies	7 500		a		7 292		Based on past expenditure pattern.

Description	Previous submission	Average strength	Proposed estimates: Standard cost	Proposed estimates: Unit or daily cost	Proposed estimates: Monthly cost	Proposed estimates: Annual cost	Explanation
			(United States dollars)				
50. Uniforms, flags and decals	4 000		[a]		5 142		Additional requirements for life jackets for naval crew and United Nations medal sets.
51. Field defence stores	25 000		[a]		7 200		Lower cost and number of ballistic walls required for the protection of patrol and observation bases.
52. Operational maps	2 400		[a]			3 000	Projected increase in replacement of maps.
53. Quartermaster and general stores	5 392		[a]		5 125		Based on past expenditure pattern.
54. Training	15 000					15 000	

[a] No standard cost exists for this item.

B. Distribution of resources by budgetary cost parameter: standard and mission-specific costs



C. Non-recurrent requirements

(Thousands of United States dollars, unless otherwise indicated)

Total, categories I-VII						**2 615.9**

[a] No standard cost exists for this item.

[b] Based on regional costs, including freight costs, as items are projected to be procured within the region.

Annex III

Support provided by the United Nations Iraq-Kuwait Observation Mission to other entities of the United Nations system in the mission area

Section providing support/tasks performed by UNIKOM	*Entities receiving support*
Medical support	
The military medical unit provides support to geographical observers temporarily working in the Basra area.	United Nations Office of the Humanitarian Coordinator for Iraq
General services	
The General Services Section provides occasional assistance in Iraq in connection with ad hoc conference and accommodation facilities in Umm Qasr.	Various United Nations offices and agencies

Annex IV

Implementation of previous recommendations of the Advisory Committee on Administrative and Budgetary Questions

Request	*Response*
The Advisory Committee recommends that in future other missions explore the possibility of including aircrew subsistence allowance in the contract for air operations (A/53/895, para. 34).	The cost of aircrew subsistence allowance has always been included in the contracts. There have been contracts in the past that have not itemized those costs, but rather included the cost in the hourly rate. This practice has ceased. With the exception of the United Nations Mission of Observers in Tajikistan and the United Nations Mission for the Referendum in Western Sahara, where the United Nations provides meals and accommodation for the crew because of lack of facilities in the areas of operation, all current contracts itemize the cost for meals and accommodations.
